

MGTOW Is Toxic

THE news story of the Incel, Mgtow who praised Eliot Rogers another Mgtow who went on a murdering spree. Before murdering over a dozen innocent people by running them over with a van. Just proves again how toxic this mentality is. Its self defeating resentment.

That is why even arguing for Mgtow is toxic because this is the logical full end of the spectrum of the mentality that Mgtow creates in people. This crazy just murdered a bunch of people because he believed its impossible for him to ever get a girlfriend..... Like Eliot Rogers.

Mgtow takes men who are having relationship and self esteem, social issues and instead of helping them to improve themselves and become self over coming people and get the life they want. It just makes them worse by demoralizing them. Its toxic. They even hate other men for simply having the normal ability to talk to women and get girlfriends. Its just resentment.
